March for Our Barnet and for public services

Barnet Alliance for Public Services (BAPS) is non-party political and campaigns for accountable, high-quality public services.

The One Barnet Programme will privatise the majority of our public services for a minimum of 10 years.

We believe that :

- Public services should not be run for profit.
- We will lose the experienced staff and infrastructure needed to bring services back in-house when the outsourced services fail.
- The One Barnet Programme will further damage the local economy.
- There are positive alternatives to cuts to the NHS, libraries and benefits.
- If this mass privatisation goes ahead in Barnet, it will spread like a virus to other communities.

BAPS has submitted **over 8,000** signatures on a petition calling for a referendum so that Barnet residents can have their say on this high-risk programme. The Council has refused to listen.

***Join us on 23 March for the biggest rally
yet for our public services everywhere***

Barnet alliance for public services

Our libraries, our NHS, our schools, our homes, our wardens
our streets, our land, our old, our young, our past, our future

Hands off our Barnet!
