The English Defence League and the British National Party are seeking to exploit the horrific murder of Lee Rigby by whipping up hatred and division. This has already seen violent reprisals against the Muslim community, including a series of arson attacks on mosques.

The government's hotline is reporting that Islamophobic hate crimes are at ten times their usual rate.

Unite Against Fascism has called this meeting to bring together anti-racists from different communities, cultures and faiths, trade unions and others, to show unity.
